This Policy describes the information Vuyisile Collin Nxazonke (ID No.: 900112 5464 080) (hereinafter referred to as Vuyisile) processes to support Vuyisile, affiliate and/or subsidiary companies, and other products and features offered by Vuyisile (Vuyisile's Products and Services). You can find additional tools and information in Vuyisile and affiliate and/or subsidiary companies' settings and/or site.

1. What kinds of information do I collect?

To provide Vuyisile's Products and Services, I must process information about you and/or your company and/or organisation. The type of information that I collect depends on how about you and/or your company and/or organisation use my Products and Services. You can learn how to access and delete information that I collect by visiting Vuyisile and affiliate and/or subsidiary companies' settings and/or site.

2. Things that about you and/or your company and/or organisation and others do and provide.

2.1. Information and content about you and/or your company and/or organisation provide.

I collect the content, communications and other information that you and/or your company and/or organisation provide when you and/or your company and/or organisation use my Products and Services, including when you and/or your company and/or organisation sign up for an account, create or share content and message or communicate with others. This can include information in or about the content that you and/or your company and/or organisation provide (e.g. metadata), such as inter alia the location of a photo or the date a file was created.

It may also include what you and/or your company and/or organisation see through features that your devices provide, such as your camera, so I can do things such as suggest Services and Products that you and/or your company and/or organisation might like, or give you and/or your company and/or organisation tips on using different formats. My systems automatically process content and communications that you and/or your company and/or organisation and others provide to analyse context and what's in them for the purposes described below. Learn more about how about you and/or your company and/or organisation can control who can see the things you and/or your company and/or organisation share.

3. Content that others share or reshare about you and/or your company and/or organisation

You should consider who you and/or your company and/or organisation choose to share with, because people who can see your and/or your company and/or organisation's activity on my Products and Services can choose to share it with others on and off my Products and Services, including people and businesses outside the audience that you and/or your company and/or organisation shared with. For example, when you and/or your company and/or organisation share content or send a message to specific networks or accounts, they can download, screenshot or reshare that content to others across or off my Products and Services, in person or in virtual reality experiences such as Vuyisile sites, Products and Services.

Also, when you and/or your company and/or organisation comment on someone else's content or react to their content, you and/or your company and/or organisation's comment or reaction is visible to anyone who can see the other person's content, and that person can change the audience later. People can also use my Products and Services to create and share content about you and/or your company and/or organisation with the audience they choose. For example, people can share a photo of you and/or your company and/or organisation in content, mention or tag you and/or your company and/or organisation at a location in a content or share information about you and/or your company and/or organisation in their contents or messages.

If you and/or your company and/or organisation am uncomfortable with what others have shared about you and/or your company and/or organisation on my Products and Services, you and/or your company and/or organisation can learn how to report the content. Information about you and/or your company and/or organisation's active status or presence on my Products and Services. People

in your and/or your company and/or organisation's networks can see signals telling them whether you and/or your company and/or organisation am active on my Products and Services, including whether you and/or your company and/or organisation am currently active on my affiliate and/or subsidiary companies, Vuyisile, or when you and/or your company and/or organisation last used my Products and Services.

4. Data with special protections:

You can choose to provide information you and/or your company and/or organisation. Vuyisile profile fields or events about you and/or your company and/or organisation's religious views, political views, who you and/or your company and/or organisation am "interested in" or about you and/or your company and/or organisation's inter alia physical and financial health. This and other information (such as racial or ethnic origin, philosophical beliefs or trade union membership) could be subject to special protections under the laws of your and/or your company and/or organisation's country.

5. Networks and connections.

I collect information about the people, Pages, accounts, hashtags and groups that you and/or your company and/or organisation am connected to and interested in, how you and/or your company and/or organisation interact with them across my Products and Services, such as people you and/or your company and/or organisation communicate with the most or groups that you and/or your company and/or organisation am part of.

I also collect contact information if you and/or your company and/or organisation choose to upload, sync or import it from a device (such as an address book or call log or SMS log history), which I use for things such as helping you and/or your company and/or organisation and others find people you and/or your company and/or organisation may know and for the other purposes listed below.

6. Your usage.

I collect information about how you and/or your company and/or organisation use my Products and Services, such as the types of content that you and/or your company and/or organisation view or engage with, the features you and/or your company and/or organisation use, the actions you and/or your company and/or organisation take, the people or accounts you and/or your company and/or

organisation interact with and the time, frequency and duration of your and/or your company and/or organisation activities.

For example, I log when you and/or your company and/or organisation am using and have last used my Products and Services, and what contents, videos and other content you and/or your company and/or organisation view on my Products and Services. I also collect information about how you and/or your company and/or organisation use features in your devices.

7. Information about transactions made on my Products and Services.

If you and/or your company and/or organisation use my Products and Services for purchases or other financial transactions (such as when you and/or your company and/or organisation make a purchase or make a donation), I collect information about the purchase or transaction as far as is allowed by law. This includes payment information, such as inter alia you and/or your company and/or organisation's account and authentication information, and billing, delivery and contact details.

8. Things others do and information they provide about you and/or your company and/or organisation.

I also receive and analyse content, communications and information that other people provide when they use my Products and Services. This can include information about you and/or your company and/or organisation, such as when others share or comment on you and/or your company and/or organisation, send a message to you and/or your company and/or organisation or upload, sync or import you and/or your company and/or organisation's contact information.

9. Device information.

As described herein, I collect information from and about the computers, phones, connected TVs and other connected devices you and/or your company and/or organisation use that integrate with my Products and Services, and I combine this information across different devices that you and/or your company and/or organisation use.

For example, I use information collected about you and/or your company and/or organisation's use of my Products and Services on your and/or your company and/or organisation's phone to better personalise the content (including ads) or features that you and/or your company and/or

organisation see when you and/or your company and/or organisation use my Products and Services on another device, such as your and/or your company and/or organisation's laptop or tablet, or to measure whether you and/or your company and/or organisation took an action in response to an ad that I should you and/or your company and/or organisation on you and/or your company and/or organisation's phone on a different device.

10. Information that I obtain from these devices includes:

Device attributes: information such as the operating system, hardware and software versions, battery level, signal strength, available storage space, browser type, app and file names and types, and plugins.

Device operations: information about operations and behaviours performed on the device, such as whether a window is in the foreground or background, or mouse movements (which can help distinguish humans from bots).

Identifiers: unique identifiers, device IDs and other identifiers, such as from services, apps or accounts that you and/or your company and/or organisation use, and Family Device IDs (or other identifiers unique to Vuyisile Company Products and Services associated with the same device or account).

Device signals: Bluetooth signals, information about nearby Wi-Fi access points, beacons and mobile phone masts.

Data from device settings: information you and/or your company and/or organisation allow me to receive through device settings that you and/or your company and/or organisation turn on, such as access to your and/or your company and/or organisation's GPS location, camera or photos.

Network and connections: information such as the name of your and/or your company and/or organisation's mobile operator or ISP, language, time zone, mobile phone number, IP address, connection speed and, in some cases, information about other devices that are nearby or on you and/or your company and/or organisation's network, so I can do things such as help you and/or your company and/or organisation stream a video from your and/or your company and/or organisation's phone to your and/or your company and/or organisation's TV.

Cookie data: data from cookies stored on your and/or your company and/or organisation's device, including cookie IDs and settings. Learn more about how I use cookies in Vuyisile Cookies Policy and affiliate and/or subsidiary companies Cookies Policy.

11. Information from partners.

Advertisers, app developers and publishers can send me information through Vuyisile Services and Products tools that they use, including inter alia my social plugins, Vuyisile Login, my APIs and SDKs. These partners provide information about you and/or your company and/or organisation's activities off Vuyisile – including information about you and/or your company and/or organisation's device, Sites you and/or your company and/or organisation visit, purchases you and/or your company and/or organisation make, the ads you and/or your company and/or organisation see and how you and/or your company and/or organisation use their services – whether or not you and/or your company and/or organisation have a Vuyisile account or am logged in to Vuyisile and advertisement reactions that you and/or your company and/or organisation make, the ads you and/or your company and/or organisation take.

For example, a services developer could use my API to tell me what services you and/or your company and/or organisation use, or a business could tell me about a purchase you and/or your company and/or organisation made. I also receive information about you and/or your company and/or organisation's online and offline actions and purchases from third-party data providers who have the rights to provide me with your and/or your company and/or organisation's information.

Partners receive your and/or your company and/or organisation's data when you and/or your company and/or organisation visit or use their services, or through third parties that they work with. I require each of these partners and such partners warrant and guarantee to have lawful rights to collect, use and share your and/or your company and/or organisation's data before providing me with any data.

To learn more about how I use cookies in connection with Vuyisile Business Products and Services tools, please review Vuyisile Cookie Policy and affiliate and/or subsidiary companies Cookie Policy.

12. How do I use this information?

I use the information that I have (subject to choices you and/or your company and/or organisation make) as described below, and to provide and support Vuyisile's Products and Services and related services described in Vuyisile Terms and affiliate and/or subsidiary companies Terms. Here's how:

11.1 Provide, personalise and improve my Products and Services

I use the information I collect to deliver my Products and Services, including to personalise features and content (including inter alia your and/or your company and/or organisation's Feed, and affiliate and/or subsidiary companies feed, and affiliate and/or subsidiary companies and ads) and make suggestions for you and/or your company and/or organisation (such as services, contacts, businesses and groups or events you and/or your company and/or organisation may be interested in or topics you and/or your company and/or organisation may want to follow) on and off my Products and Services.

To create personalised Products and Services that am unique and relevant to you and/or your company and/or organisation, I use your and/or your company and/or organisation's connections, preferences, interests and activities based on the data that I collect and learn from you and/or your company and/or organisation and others (including any data with special protections you and/or your company and/or organisation choose to provide); how you and/or your company and/or organisation use and interact with my Products and Services; and the people, places or things that you and/or your company and/or organisation am connected to and interested in on and off my Products and Services.

Learn more about how I use information about you and/or your company and/or organisation to personalise your and/or your company and/or organisation's Vuyisile and affiliate and/or subsidiary companies experience, including features, content and recommendations in Vuyisile's Products and Services. You and/or your company and/or organisation can also learn more about how I choose the ads that you and/or your company and/or organisation see.

11.2 Information across Vuyisile's Products and Services and devices:

I connect information about you and/or your company and/or organisation's activities on different Vuyisile's Products and Services and devices to provide a more tailored and consistent experience on all Vuyisile's Products and Services that you and/or your company and/or organisation use, wherever you and/or your company and/or organisation use them.

For example, I can suggest that you and/or your company and/or organisation join a group on Vuyisile channels that includes people you and/or your company and/or organisation follow and/or communicate with. I can also make you and/or your company and/or organisation's experience more seamless, for example, by automatically filling in your and/or your company and/or organisation's registration information (such as you and/or your company and/or organisation's phone number) from one Vuyisile's Product when you and/or your company and/or organisation sign up for an account on a different Product.

11.2.1. Location-related information

I use location-related information – such as you and/or your company and/or organisation's current location, where you and/or your company and/or organisation live, the places you and/or your company and/or organisation like to go, and the businesses and people you and/or your company and/or organisation am near – to provide, personalise and improve my Products and Services, including ads, for you and/or your company and/or organisation and others.

Location-related information can be based on things such as precise device location (if you and/or your company and/or organisation have allowed me to collect it), IP addresses and information from you and/or your company and/or organisation's and others' use of Vuyisile's Products and Services (such as check-ins or events you and/or your company and/or organisation attend).

11.2.2. Product research and development

I use the information I have to develop, test and improve my Products and Services, including by conducting surveys and research, and testing and troubleshooting new products and features.

11.2.3. Face recognition

If you and/or your company and/or organisation have it turned on, I use face recognition technology to recognise you and/or your company and/or organisation in photos, videos and camera experiences. The face recognition templates that I create may constitute data with special protections under the laws of you and/or your company and/or organisation's country.

Learn more about how I use face recognition technology, or control my use of this technology in Vuyisile settings. I utilise face recognition technology for your and/or your company and/or organisation's and affiliate and/or subsidiary companies experience, I herein explicitly let you and/or your company and/or organisation know, and you and/or your company and/or organisation have control over whether I use this technology for you and/or your company and/or organisation.

Ads and other sponsored content: I use the information I have about you and/or your company and/or organisation – including information about you and/or your company and/or organisation's interests, actions and connections – to select and personalise ads, offers and other sponsored content that I show you and/or your company and/or organisation.

Learn more about how I select and personalise ads, and you and/or your company and/or organisation's choices over the data I use to select ads and other sponsored content for you and/or your company and/or organisation in Vuyisile Settings and affiliate and/or subsidiary companies Settings.

11.3. Providing measurement, analytics and other business services.

I use the information that I have (including your and/or your company and/or organisation's activity off my Products and Services, such as the Sites you and/or your company and/or organisation visit and ads you and/or your company and/or organisation see) to help advertisers and other partners measure the effectiveness and distribution of their ads and services, and understand the types of people who use their services and how people interact with their Sites, apps and services. Learn how I share information with these partners.

11.4. Promoting safety, integrity and security.

I use the information that I have to verify accounts and activity, combat harmful conduct, detect and prevent spam and other bad experiences, maintain the integrity of my Products and Services, and promote safety and security on and off of Vuyisile's Products and Services. For example, I use data that I have to investigate suspicious activity or violations of my Terms or Policies, or to detect when businesses need help and risk management. To learn more, visit Vuyisile Security Help Centre and affiliate and/or subsidiary companies Security Tips.

11.5. Communicate with you and/or your company and/or organisation.

I use the information that I have to send you and/or your company and/or organisation marketing communications, communicate with you and/or your company and/or organisation about my Products and Services and let you and/or your company and/or organisation know about my Policies and Terms. I also use you and/or your company and/or organisation's information to respond to you and/or your company and/or organisation when you and/or your company and/or organisation contact me.

11.6. Researching and innovating for social good.

I use the information that I have (including from research partners I collaborate with) to conduct and support research and innovation on topics of general social welfare, technological advancement, public interest, health and Ill-being. For example, I analyse information I have about migration patterns during crises to aid relief efforts. Learn more about my research programmes.

12. How is this information shared?

Your information is shared with others in the following ways:

12.1. Sharing on Vuyisile's Products and Services

People, businesses and accounts that you and/or your company and/or organisation share and communicate with. When you and/or your company and/or organisation share and communicate using my Products and Services, you and/or your company and/or organisation choose the audience for what you and/or your company and/or organisation share. For example, when you and/or your company and/or organisation create content on Vuyisile, you and/or your company and/or organisation select the audience for the content, such as a group, all of you and/or your company and/or organisation's connections, the public, or a customised list of people.

Similarly, when you and/or your company and/or organisation use affiliate and/or subsidiary companies to communicate with people or businesses, those people and businesses can see the content you and/or your company and/or organisation send. Your network can also see actions that you and/or your company and/or organisation have taken on my Products and Services, including engagement with ads and sponsored content. I also let other accounts see who has viewed their Vuyisile's or affiliate and/or subsidiary companies' content.

Public information can be seen by anyone, on or off my Products and Services, including if they do not have an account. This includes you and/or your company and/or organisation's and affiliate and/or subsidiary companies username, any information you and/or your company and/or organisation share with a public audience, information in your and/or your company and/or organisation's public profile on Vuyisile, and content you and/or your company and/or organisation share on any Vuyisile's Page, public and affiliate and/or subsidiary companies account or any other public forum.

You, other people using Vuyisile and affiliate and/or subsidiary companies, and I can provide access to or send public information to anyone on or off my Products and Services, including in other Vuyisile's Company Products and Services, in search results or through tools and APIs. Public information can also be seen, accessed, reshared or downloaded through third-party services such as search engines, APIs and offline media such as TV, and by apps, Sites and other services that integrate with my Products and Services. Learn more about what information is public and how to control your and/or your company and/or organisation's visibility on Vuyisile and affiliate and/or subsidiary companies.

13. Apps, Sites and third-party integrations on or using my Products and Services.

When you and/or your company and/or organisation choose to use third-party apps, Sites or other services that use, or am integrated with, my Products and Services, they can receive information about what you and/or your company and/or organisation content or share. For example, when you and/or your company and/or organisation purchase services with you and/or your company and/or organisation's Vuyisile's network or use Vuyisile's Products and Services or Share button on a site, the services developer or site can receive information about you and/or your company and/or organisation's activities in the services or receive a comment or link that you and/or your company and/or organisation share from the site on Vuyisile.

Also, when you and/or your company and/or organisation download or use such third-party services, they can access you and/or your company and/or organisation's public profile on Vuyisile, and any information that you and/or your company and/or organisation share with them. Apps and Sites that you and/or your company and/or organisation use may receive your and/or your company and/or

organisation's list of Vuyisile networks if you and/or your company and/or organisation choose to share it with them.

But apps and Sites that you and/or your company and/or organisation use will not be able to receive any other information about you and/or your company and/or organisation's Vuyisile's networks from you and/or your company and/or organisation, or information about any of you and/or your company and/or organisation's affiliate and/or subsidiary companies followers (although you and/or your company and/or organisation's networks and followers may, of course, choose to share this information themselves). Information collected by these third-party services is subject to their own protections, rules, terms and policies, not this one.

Devices and operating systems providing native versions of Vuyisile and affiliate and/or subsidiary companies (i.e. where I have not developed my own first-party apps) have access to all information that you and/or your company and/or organisation choose to share with them, including information that you and/or your company and/or organisation's networks share with you and/or your company and/or organisation, so that they can provide my core functionality to you and/or your company and/or organisation.

Note: I am in the process of restricting developers' data access even further to help prevent abuse. For example, I will revoke developers' access to you and/or your company and/or organisation's Vuyisile's and affiliate and/or subsidiary companies data if you and/or your company and/or organisation have not used their app in a reasonable period, and I am changing login, so that in the next version, I will reduce the data that an app can request without app review to include only name, and affiliate and/or subsidiary companies username and bio, profile photo and email address. Requesting any other data will require my approval.

14. New owner

If the ownership or control of all or part of my Products and Services or their assets changes, I may transfer you and/or your company and/or organisation's information to the new owner.

15. Sharing with third-party partners

I work with third-party partners who help me and improve my Products and Services or who use Vuyisile Business tools to grow their businesses, which makes it possible to operate my companies and provide affordable services to people, companies and states around the world. I also impose strict restrictions on how my partners can use and disclose the data I provide. Here are the types of third parties that I share information with:

15.1. Partners who use my analytics services

I provide aggregated statistics and insights that help people and businesses understand how people are engaging with their contents, listings, Pages, videos and other content on and off Vuyisile's Products and Services. For example, Page admins and affiliate and/or subsidiary companies' business profiles may receive information about the number of people or accounts who viewed, reacted to or commented on their contents, as well as aggregate demographic and other information that helps them understand interactions with their Page or account.

15.2. Advertisers

I provide advertisers with reports about the kinds of people seeing their ads and how their ads are performing, but I don't share information that personally identifies you and/or your company and/or organisation (information such as you and/or your company and/or organisation's name or email address that by itself can be used to contact you and/or your company and/or organisation or identifies who you and/or your company and/or organisation are) unless you and/or your company and/or organisation give me permission.

For example, I provide general demographic and interest information to advertisers (for example, that an ad was seen by a woman between the ages of 25 and 34 who lives in Madrid and likes software engineering) to help them better understand their audience. I also confirm which Vuyisile ads led you and/or your company and/or organisation to make a purchase or take an action with an advertiser.

15.3. Measurement partners

I share information about you and/or your company and/or organisation with companies that aggregate it to provide analytics and measurement reports to my partners.

15.4. Partners offering goods and services in my Products and Services

When you and/or your company and/or organisation subscribe to receive content, or purchase something from a seller in my Products and Services, the content creator or seller can receive your and/or your company and/or organisation's public information and other information that you and/or your company and/or organisation share with them, as well as the information needed to complete the transaction, including shipping and contact details.

15.5. Vendors and service providers

I provide information and content to vendors and service providers who support my business, such as by providing technical infrastructure services, analysing how my Products and Services are used, providing customer service, facilitating payments and/or conducting surveys.

15.6. Researchers and academics

I also provide information and content to research partners and academics to conduct research that advances scholarship and innovation that supports my business or mission and enhances discovery and innovation on topics of general social welfare, technological advancement, public interest, health and well-being.

15.7. Law enforcement or legal requests

I share information with law enforcement or in response to legal requests in the circumstances required. Learn more about how you and/or your company and/or organisation can control the information about you and/or your company and/or organisation that you and/or your company and/or organisation or others share with third-party partners in Vuyisile and affiliate and/or subsidiary companies' settings.

16. How do Vuyisile and Companies work together?

Vuyisile and affiliate and/or subsidiary companies share infrastructure, systems and technology with other Vuyisile's Companies to provide an innovative, relevant, consistent and safe experience across all Vuyisile Company Products and Services that you and/or your company and/or organisation use.

I also process information about you and/or your company and/or organisation across Vuyisile and Companies for these purposes, as permitted by applicable law and in accordance with their Terms and Policies. For example, I process information from affiliates and/or subsidiaries about accounts

sending spam on its service so I can take appropriate action against those accounts on Vuyisile, and affiliate and/or subsidiary companies. I also work to understand how people use and interact with Vuyisile Company Products and Services, such as understanding the number of unique users on different Vuyisile Company Products and Services.

17. How can I manage or delete information about me?

I provide you and/or your company and/or organisation with the ability to access, rectify, port and delete your and/or your company and/or organisation's data. Learn more in you and/or your company and/or organisation's Vuyisile and affiliate and/or subsidiary companies settings. I store data until it is no longer necessary to provide my services and Vuyisile's Products and Services or until you and/or your company and/or organisation's account is deleted – whichever comes first. This is a case-by-case determination that depends on things such as the nature of the data, why it is collected and processed, and relevant legal or operational retention needs.

For example, when you and/or your company and/or organisation search for something on Vuyisile, you and/or your company and/or organisation can access and delete that query from within you and/or your company and/or organisation's search history at any time, but the log of that search is deleted after six months. If you and/or your company and/or organisation submit a copy of your and/or your company and/or organisation's government-issued ID for account verification purposes, I delete that copy within a reasonable time determined by me from no longer needing the copy for provision of my Products and Services after review, unless otherwise stated. Learn more about deletion of content that you and/or your company and/or organisation have shared and cookie data obtained through social plugins.

When you and/or your company and/or organisation delete your and/or your company and/or organisation's account, I delete things that you and/or your company and/or organisation have contented, such as you and/or your company and/or organisation's photos and status updates, and you and/or your company and/or organisation will not be able to recover that information later. Information that others have shared about you and/or your company and/or organisation is not part of your and/or your company and/or organisation's account and will not be deleted.

If you and/or your company and/or organisation do not want to delete your and/or your company and/or organisation's account but want to temporarily stop using the Products and Services, you and/or your company and/or organisation can deactivate your and/or your company and/or organisation's account instead. To delete your and/or your company and/or organisation's account at any time, please visit Vuyisile and affiliate and/or subsidiary companies' settings.

18. How do I respond to legal requests or prevent harm?

I access, preserve and share your and/or your company and/or organisation's information with regulators, law enforcement or others:

- a. In response to a legal request (e.g. a search warrant, court order or subpoena) if I have a *bona fide* belief that the law requires me to do so. This may include responding to legal requests from jurisdictions outside of the Republic of South Africa when I have a *bona fide* belief that the response is required by law in that jurisdiction, affects users in that jurisdiction and is consistent with internationally recognised standards.
- b. When I have a *bona fide* belief that it is necessary to:
 - i. detect, prevent and address fraud, unauthorised use of the Products and Services, breaches of my Terms or Policies, or other harmful or illegal activity; to protect ourselves (including my rights, property or Products and Services), you and/or your company and/or organisation or others, including as part of investigations or regulatory enquiries; or to prevent death or imminent bodily harm.

For example, if relevant, I provide information to and receive information from third-party partners about the reliability of your and/or your company and/or organisation's account to prevent fraud, abuse and other harmful activity on and off my Products and Services.

Information I receive about you and/or your company and/or organisation (including financial transaction data related to purchases made with Vuyisile) can be accessed and preserved for an extended period when it is the subject of a legal request or obligation, governmental investigation or investigations of possible violations of my terms or policies, or otherwise to prevent harm. I also retain information from accounts disabled for term breaches for at least a year to prevent repeat abuse or other term breaches.

19. How do I operate and transfer data as part of my global services?

I share information globally, both internally within Vuyisile and Companies, and externally with my partners and with those you and/or your company and/or organisation connect and share with around the world in accordance with this Policy. Your information may, for example, be transferred or transmitted to, or stored and processed in the Republic of South Africa or other countries outside of where you and/or your company and/or organisation live, reside and/or am domiciled for the purposes described in this Policy.

These data transfers are necessary to provide the services set forth in Vuyisile Terms and affiliate and/or subsidiary companies Terms, and to globally operate and provide my Products and Services to you and/or your company and/or organisation. I utilise standard contract clauses, rely on the European Commission's adequacy decisions about certain countries, as applicable, and obtain you and/or your company and/or organisation's consent for these data transfers to the Republic of South Africa and other countries.

20. How will I notify you and/or your company and/or organisation of changes to this Policy?

I may notify you and/or your company and/or organisation before I make changes to this Policy and may give you and/or your company and/or organisation the opportunity to review the revised Policy before you and/or your company and/or organisation choose to continue using my Products and Services.

21. How to contact Vuyisile with questions

You can learn more about how privacy works on Vuyisile and on affiliate and/or subsidiary companies. If you and/or your company and/or organisation have questions about this Policy, you and/or your company and/or organisation can contact me as described below.

You can contact me online at www.nxazonke.ml, via email on oddgroupinfo@gmail.com or by writing to:
